

SARAH MACINTOSH

Experience

Product Designer Accenture

September 2024 - Present

- Led an agile, cross-functional team of product and content designers to deliver under tight deadlines
- Established a standardized process to reduce inconsistencies across overlapping work from multiple teams
- Partnered with engineering to identify and implement design solutions that balanced technical feasibility with user needs
- Developed and maintained strong stakeholder relationships in a fast-paced, high-pressure environment
- Designed, built, and maintained screens and components within a scalable design system
- Leveraged AI (Figma x Claude Code, Figma Make) to rapidly build and iterate on components

UX Researcher Perkin Elmer

September - December 2022

- Interviewed users to determine needs and pain points with current medical imaging system. Coded the responses and presented the results to upper management.
- Designed and ran user research studies to support the design of design system components. Analyzed results of user research surveys and developed design recommendations in accordance with WCAG AA and ISO standards.

UX Designer TRIYO

January - April 2022

- Designed custom solutions and interactive prototypes for a product that will serve over 400 end users at a major Canadian bank.
- Wrote user stories and acceptance criteria to effectively communicate design goals to the QA and development teams.

UX Program Advisor Employment Social Development Canada

January - April 2020

- Designed and ran card sorts, treejacks, first click tests and user experience surveys to gather data on how users interacted with Government of Canada (GC) web pages and identify user pain points.

Skills & Tools

Data Collection

- User testing sessions
- User interviews
- Card sorts

Data Analysis

- Optimal Workshop
- Excel
- Survey Monkey

UX Design

- Figma, Adobe XD
- Claude Code, Figma Make
- Wireframing & Prototyping

Education

University of Waterloo

Systems Design Engineering
Honours Co-op BAsC.
2019-2024

Courses

- User Centred Design Methods
- Cognitive Ergonomics
- Interface Design

Community

- UW Peer Mentorship Program
- Alpine Club of Canada - Vancouver
- Design event planning team
